

## our story

Beth and her husband Scott are the proud parents of three daughters. Caroline, their youngest, was born with a disability. "Caroline simply taught us to look at life through another lense. The lense showed us there is no right or wrong way to live your best life. Caroline and her peers are the most sincere and genuine people you will ever meet, says Whole Latte Love Cafe founder and director, Beth Humbert.

Meaningful work has significant benefits for all working age adults, including people with developmental disabilities. These benefits all contribute to the enrichment of our community. The reality is this group are the most dedicated employees who desire nothing more than to belong - just like everyone else.

**Our goals are to remove old stigmas and barriers while providing a path towards greater independence.** One in four Americans live with a disability, according to the CDC. What makes us so afraid of people who are different? Why do we become uncomfortable when we encounter someone who struggles to communicate or walks with a limp or has unique eyes? The cafe is definitely much more than a cup-of-Joe. *We not only appreciate diversity, we celebrate it.*

Our supported employment services are available to adults with disabilities transitioning after high school seeking competitive employment in the future. We offer a variety of vocational supports related to soft skills, money management, accommodations and volunteer and/or job seeking services.

***Let's change the way people are included and accepted ~ together.***

## how can you help? donate • empower

Consider being a part of something that goes beyond donating money to a nonprofit. We have a variety of ways to help support our cause.

Embracing socially responsible opportunities goes a long way towards attracting and retaining customers, which in turn benefits our communities and contributes to the welfare of society.
